

Chula Vista, California, USA

Service Center

Our service center features the latest technology and manufacturing skills to repair and rebuild your centrifugal compressors, reciprocating compressors, steam turbines, valves, pumps and rotary compressors whether it's Dresser-Rand or other nameplate equipment.

With more than two dozen world-class service centers and several satellite offices strategically located throughout the world, including two service centers dedicated to U.S. Navy work, Dresser-Rand's dedicated service center staff is ready to provide responsive, reliable support for your equipment. We recognize the importance of your equipment and work closely with you to minimize cost and downtime.

Dresser-Rand Chula Vista, California, Service Center

The Chula Vista, California, Service Center is dedicated to U.S. Navy work in the Pacific region. This service center maintains 35,500 square feet (3,298 square meters) of shop space and 4,000 square feet (372 square meters) of office space. The business at this location consists primarily of equipment overhauls, repairs, maintenance, upgrades and assessments of U.S. Navy shipboard machinery with a focus on supporting ships' readiness.

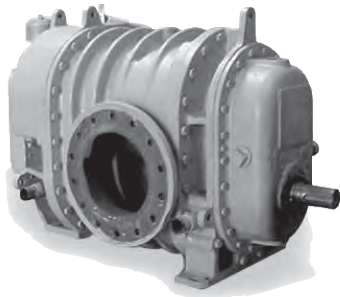

The Chula Vista Service Center provides complete lifecycle services from onboard trouble shooting and repair to complete equipment removal, inspection, NAVSEA Class B overhauls, shop testing, reinstallation and shipboard testing. Shop testing includes performance testing of compressors up to 5000 PSI and pump testing up to 3000 GPM. The Chula Vista Service Center services the U.S. Navy in the entire Pacific rim with factory-trained technicians to meet your requirements. All employees are US citizens with security clearances to travel "anytime and anywhere" to meet your requirements.

Ready to issue equipment

The Chula Vista Service Center maintains an extensive list of equipment and parts on hand ready to meet your critical schedule requirements.

We service the following equipment:

- **H.P. / L.P. / Deballast and Blower Air Compressors** (reciprocating, rotary and centrifugal)
- **Dresser-Rand legacy products** (Ingersoll-Rand, Dresser-Roots, Worthington) and Navy Standard Compressors

Safety

Safety is a top priority for Dresser-Rand. We are proactive in preventing incidents that can result in injury, property damage, or be detrimental to the environment. Safety training and assessments are a daily practice.

Quality

Our service center is ISO 9001 certified and is a factory-authorized service center for all Dresser-Rand equipment along with GE Navy / Marine steam turbines, Marotta Controls, Pumps, Strainers and Distillers.

Regional Expertise (Sales, Field Service, Technical Support)

Whether your equipment nameplate identifies Dresser-Rand or another manufacturer, our integrated field service teams can help you develop cost-effective, field-proven solutions for repairs, overhauls, upgrades, remanufacture and nearly any other challenge involving equipment and related control systems. Our field service team is supported by an extensive technical support network consisting of research and development teams, equipment design engineers and aerodynamic performance engineers who are available to help you conduct application and feasibility studies for complex projects.
